Government of Madras

PUBLIC (SERVICES) DEPARTMENT

G.O. No. 711, 2nd May 19__

Public Services—Subordinate Services—Selection posts—Lists of persons suitable for promotion to be prepared in consultation with the Commission in advance of occurrence of vacancies.

Order—No. 711, Public (Services), dated 2nd May 1935.

Under rule 14 (*c*) (i) of the revised general rules for subordinate services, promotion in a service or class to a selection category or to a selection grade should be made after consultation with the Commission. Such promotions should, subject to the provisions of sub-rule (*b*) of rule 14, be made on grounds of merit and ability, seniority being considered only where the merit and ability are approximately equal. This rule will come into play only when the posts are specifically included in a selection category or in a selection grade in the statutory service rules; and the authorities competent to make the promotions need at present consult the Commission in regard to the suitability of only such of the persons as are in their opinion fit to be promoted to such category or grade.

The Commission has suggested that lists of persons who are suitable for such promotion may, in consultation with it, be prepared in advance, for filling up vacancies which are likely to occur during the following year and that such lists may be revised every year with reference to the latest records of the selected persons. Others who are considered suitable for such promotion since the preparation of the last list may also be considered in connexion with the preparation of the next list. This procedure will avoid administrative inconvenience which may be caused if the Commission is to be consulted only after the occurrence of vacancies and it will obviate the necessity of having recourse to making appointments under the emergency provisions in rule 14 (*e*) of the general rules. Government accept the Commission's suggestion and direct the appointing authorities to take action accordingly. The dates on which lists should be sent to the Madras Services Commission should be fixed for the various offices by the heads of departments concerned in consultation with the Commission.

(By order of the Governor in Council)

P. Appu Nair,
Deputy Secretary to Government.

To the Madras Services Commission (with C.L.) with reference to its letter No. 342-C/35, dated 2nd March 1935.

SECRETARY TO GOVERNMENT 28 APR 1943 REVENUE DEPARTMENT

Letter No. Ref.A2. 4629-42 dated 18-4-1943 from T. Karamatullan, Esq. I.C.S., Collector of South Kanara.

...

Sub: Establishment - temporary - additional clerks - retention - instructions solicited.

Ref: G.O. Ms. No. 1040, Rev., dated 9-1-43. 1403 (J)

In their order cited above the Government were pleased to accord sanction for the retention for a further period of 6 months or till the termination of hostilities, whichever is earlier of one lower division clerk on Rs.30-55 p.m. in each of the Revenue Divisional Offices, Mangalore, Coondapoor and Puttur and one in each of the six Tahsildars' offices in this District. This period will expire about the middle of June 1943. The work in each and every office relating to war and the control orders is increasing day by day and cannot be attended to by other clerks without deterioment to their work. This necessitates the retention of the staff even beyond June next. I beg to recommend therefore that the sanction of the Government may kindly be obtained for the retention of the above additional staff for a further period of one year or till the termination of hostilities whichever is earlier.

REFERENCE:

Submitted to the Government.

2. The Board recommends that the Government may be pleased to sanction the retention of the special staff for a further period of 6 months from the date of expiry of the present sanction.

off the land. The crop is cut with sickles

Harvest. and after being left in the field to dry off it is stacked. The plants are usually cut 6 to 8 inches from the ground with the object of providing stubble to plough into the land. This practice is seen on land where there is an excess of alkaline salts and it improves the physical e of the soil and promotes drainage.

31. The yield of paddy varies according to the time of planting, the care with which the crop is cultivated and the class of soil. Late planted crops yield less than those planted early in the season and an excess of water also has an adverse effect on the harvest. On the best type of soil 3,500 lbs. grain per acre may be obtained and in exceptional cases this figure may be exceeded. On alkaline soil about 1,000 to 1,750 lbs. grain may be harvested. The quantity of straw obtained varies according to the variety and the conditions under which the crop is grown. On an average about 2,500 to 5,000 dry-weight per acre may be obtained.

32. A second crop of paddy is cultivated from January to April--May but the area cropped varies from season to season according to the water supply in the Godavari river. In the case of lands irrigated by the Kistna river there is no wet cultivation during this period. Lands watered by the Godavari are put under second crop cultivation every two or three years, the supply being more frequent in the low canals and on lands where submersion in the early season
